

DBS Plus

Digital Broadcast Teaching System

DBS Plus, an innovative audio visual teaching broadcasting system, engages teachers and students in an interactive learning environment. It enables Wi-Fi display (Smartphone & Tablet), dialogue, group discussion, students demonstration, online test, prompt feedback, grade, help, roll call, etc., involving your students motivated and focused even under non-PC based classrooms. You will never regret to get closer to DBS Plus, the latest inspirational education system.

Feature

Client Record Control

Practice communication skills by oral recording

Answer Collection / Analysis

Collect answer and calculate score automatically
1920*1080 high resolution display

Wireless Broadcasting and Bluetooth Dual Control

Quiz / Exam Edit on PowerPoint

Not only easy for teachers to edit teaching materials through Power Point but also provides lots of interesting Q and A modes for in-class activity

Component

**BT-2088C
Booster**

Single booster with 8 ports

**SB-1082A-A8S
Student box**

Support higher resolution up to 1920*1080

**DM-400H
Control Panel**

Sensor touch panel with 80 students layout

**DM-316BV
AV Converter**

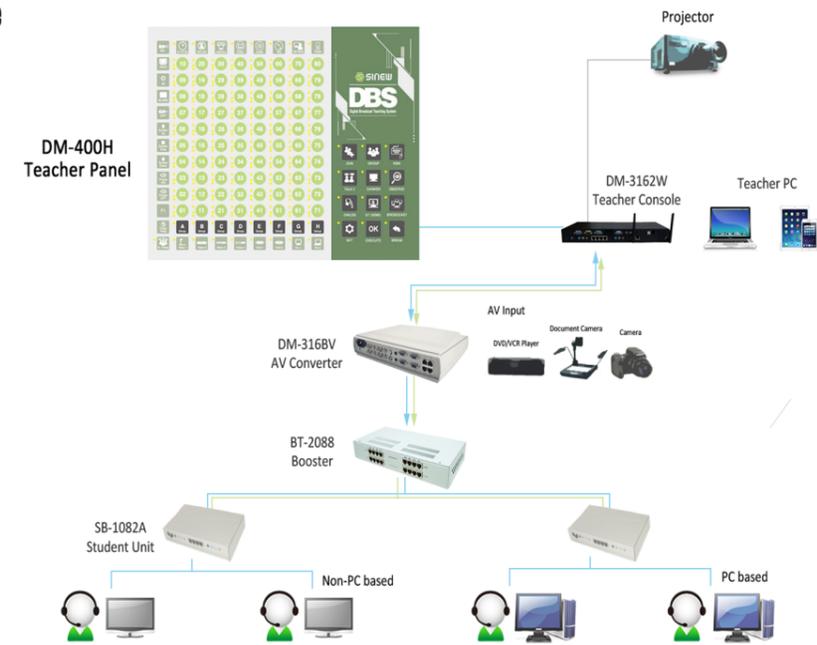

Expand 4 AV & 2 VGA devices

**DM-3162W
Teacher Unit**

Support wireless projection from teacher's tablet

Structure

Function

	Function	Description
